Education

National Institute of Technology, Rourkela

Bachelor of Technology in Mining Engineering

Aug 2024 – Present

Rourkela, Odisha

SLV International, Jaipur

RBSE, Science (PCM) (Percentage – 89.6%)

May 2023

Jaipur, Rajasthan

SLV International, Jaipur

RBSE (Percentage – 91.0%)

May 2019

Jaipur, Rajasthan

Relevant Coursework

- Machine Learning
- SQL & Databases
- Linear Algebra
- Applied Statistics
- Data Structures
- Model Evaluation

Professional Experience

Business Growth Intern — GenScript AI

Growth Strategy & Market Analysis

Aug 2025 – Sep 2025

Internship Certificate

- Evaluated performance metrics across a **10 member team** to optimize project execution.
- Conducted market research to support **go-to-market strategy** and **business growth** initiatives.
- Executed targeted GTM campaigns, expanding user reach across **3+ market segments**.

Projects

Customer Segmentation using Machine Learning

Python — Scikit-learn — K-Means Clustering — Pandas

Apr 2026

[Project Link](#)

- Engineered an unsupervised clustering pipeline on a dataset of **200 customer profiles** across 5 core demographic and spending attributes.
- Segmented customers into **5 distinct behavioral clusters** based on average Age, Annual Income, and Spending Score profile metrics.

Road Accident Trends Analytics

Excel — SQL — Power BI — Data Visualization

Sep 2026

[Project Link](#)

- Analyzed **144.4K+ accidents** and **195.7K+ casualties**, including fatal, serious, and slight casualty trends.
- Built **Power BI and Excel dashboards** to analyze vehicle type, road type, location and light conditions.
- Visualized **2021–2022 monthly trends** using KPIs, charts, filters, and geographic maps for accident analysis.

Blinkit Sales Analysis Dashboard

Excel — Pivot Tables — Data Cleaning — Data Visualization

Apr 2026

[Project Link](#)

- Analyzed **8,522+ items** and **\$1.20M+ sales** across categories, outlets, and customer ratings.
- Built an interactive **Excel dashboard** with **10+ charts, KPIs, Pivot Tables, and filters** for sales analysis.
- Cleaned and transformed sales data to analyze **outlet performance, product trends, and location-wise sales**.

Technical Skills

- **Programming Languages:** Python, SQL, C++, CSS, HTML, JavaScript
- **Machine Learning:** NumPy, Pandas, Scikit-learn, Seaborn, Matplotlib, OpenCV, Regression Models,
- **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Extracurricular Activities

Senior Analyst, Analytics & Consulting Club

Mar 2025 – Apr 2026

Worked on analytical problem-solving tasks, consulting frameworks, and data-driven case studies.
